

RBS Headquarters, Edinburgh

Anytime was recently successful in securing the contract for supply of fitness equipment to the Royal Bank of Scotland gym at their Edinburgh head offices. The site is one of many Nuffield Health facilities that Anytime has worked with in recent years and the Nuffield partnership is one that continues to grow.

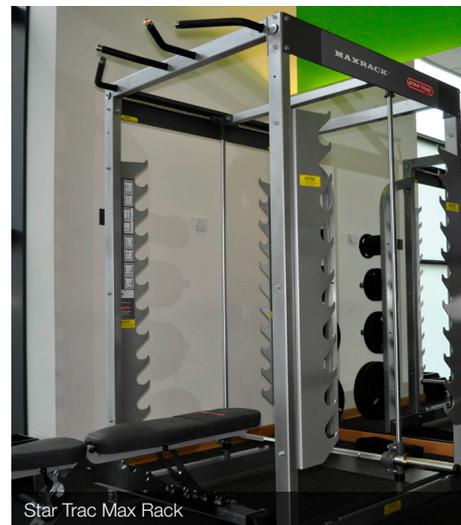

This five year contract, valued at £350,000 involved not only provision and replacement of equipment also responsibility for interior design, flooring, AV systems, and staff training. As one of Nuffield Health's flagship sites, this also resulted in a supplier agreement across the UK worth approximately £1m per year.

One of the most important factors in this partnership is Anytime Leisure's continued commitment to an annual service contract and maintaining a 48 hour maximum response time.

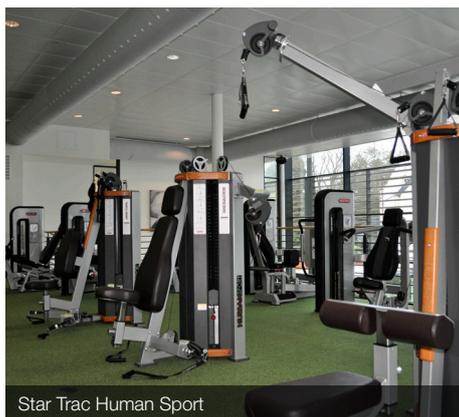

The RBS Health Site is a premier fitness site within Edinburgh, boasting over 3000 members. The full design and equipment package has resulted in a facility which is one of the most impressive in the country and delivers great results for Nuffield and RBS.

Star Trac Human Sport

Star Trac Inspiration Strength Range

"We have worked with Paul Bodger from Anytime for over 6 years since the RBS project first launched. We initially purchased Cybex equipment through Paul, including equipment layouts. For the 2011 refurbishment project we needed to ensure that the centre retained its position as a 3 times Flame Award winner. We tendered the equipment supply with Anytime, Cybex, Life Fitness and Technogym. Anytime were selected as the suppliers as they showed a much greater understanding of our requirements. As well as equipment supply, Anytime provided Interior Design, site refurbishment and Staff Training. The service since installation has been excellent as always. We continue to use Anytime for sites across the UK and would recommend them for all fitness related projects."

- Kevin Thomson, Regional Director - Corporate Wellbeing, Nuffield Health Wellbeing, RBS Edinburgh
